<sup>- =</sup> nil or a negligible value.

Notes: All estimates are approximate. SIPRI revises its world nuclear forces data each year based on new information and updates to earlier assessments. The data for Jan. 2024 replaces all previously published SIPRI data on world nuclear forces. Countries are ordered by date of first known nuclear test; however, there is no conclusive open-source evidence that Israel has tested its nuclear weapons. Russia and the USA no longer publish aggregate numbers for strategic nuclear forces limited by the 2010 Treaty on Measures for the Further Reduction and Limitation of Strategic Offensive Arms (New START).
